

TABLE OF CONTENTS

Chapter 1: The Seeing Brain... 1

- Abnormalities of Visual Acuity... 4
- Treating Disorders of Visual Acuity... 10
- Disorders of Color Perception: Color Blindness... 13
- Visual Pursuit and Saccades... 14
- Exercises to Improve Ocular-Vestibular Skills... 16
- Scotomas... 18
- Blindsight and Cerebral Visual Impairment (CVI)... 19
- Visual Agnosia... 21
- Hallucinations and Disorders of Perception... 27
- Visual Neglect... 29
- Learning to See: Cases of Restored Sight... 31
- Testing for Visual Processing Disorders... 34

Chapter 2 The Hearing Brain... 39

- Hearing and Otitis Media... 42
- Language in the Brain... 48
- Auditory Processing Disorders... 50
- Disordered Perception of Filtered Words... 52
- Figure-Ground and Auditory Attention Disorders... 55
- Speed of Processing Disorders... 61

Risk Factors for Auditory Processing Disorders... 66

Conclusions... 70

Chapter 3 The Vestibular Brain... 73

Phobias and Panic Attacks... 76

Attention Deficit and Learning Disabilities... 77

Self-Stimulation Behaviors... 78

Symptoms of Vestibular Impairment... 80

Causes of Vestibular Dysfunction... 83

Assessing Vestibular Problems... 85

Activities that Provide Vestibular Stimulation... 87

Example of a Vestibular Program for a Child...92

Conclusions...96

Chapter 4 The Dyslexic Brain... 97

Visual Processing in Dyslexia... 98

Visual Acquired Dyslexia... 101

Reading and the Brain... 102

Genetic Candidates for Dyslexia... 105

Treating Dyslexia... 108

Visual Therapies... 108

Phoneme Discrimination Training... 113

Conclusions...116

Chapter 5 Attention Deficit and the Brain... 117

- Identifying Attention Deficit: Lack of Concensus... 118
- The Effects of Medication on Academics... 121
- Risks and Long-term Effects of Medications... 124
- Methylphenidate and Cocaine... 125
- Down-Regulation of Dopamine... 126
- Frontal Lobe Functions and Attention Deficit... 127
- Identifying and Treating Frontal Dysfunction... 129
- Conclusions... 132

Chapter 6 Sensory Issues in Autism... 135

- Abnormal Face Processing... 137
- Abnormal Motion Processing in Autism... 140
- Abnormal Motor Planning and Sequencing ...142
- Abnormal Speech Processing... 143
- Hyperacusis...144
- Vestibular Dysfunction... 147
- Dyspraxia and Apraxia... 148
- Tests for Dyspraxia and Apraxia... 151
- Treating Apraxia and Dyspraxia... 152
- Conclusions... 156

Chapter 7 Diet and Alternative Therapies... 157

B6, Magnesium and Thiamine... 160

Vitamin A... 163

Iron... 164

Vitamin Excesses... 165

Fatty Acids... 166

Heavy Metals... 167

Mercury... 167

Mercury, Thimerosal and Vaccines...171

Chelation... 178

Antioxidant Therapy...181

Glutathione... 184

Gluten Free Diets... 186

Secretin... 188

Antibiotics...193

Yeast... 193

Electromagnetic Radiation... 194

Hyperbaric Oxygen Therapy... 195

IVIG Therapy... 197

FGF-2 Therapy... 198

Conclusions... 200

Appendix 1 Sources of Vitamins and Minerals... 209

Vitamin A...	209
Thiamine (B1)...	210
Riboflavin (B2)...	210
Niacin (B3)...	211
Pantothenic Acid (B5)...	212
Pyroxidine (B6)...	212
Choline (B9)...	213
Cobalamin (B12)...	214
Inositol...	215
Folate (folic acid)...	216
Vitamin C...	217
Vitamin D...	218
Vitamin E...	218
Vitamins K1 and K2...	219
Iron...	220
Zinc...	221
Copper...	222
Selenium...	223
Molybdenum...	223

Appendix 2 Ototoxic and Vestibulotoxic Factors... 225

Drugs and Factors That Can Damage Hearing... 225

Symptoms of Hearing Damage... 226

Appendix 3 Milestones in Language... 229

Milestones in Typical Language... 229

Milestones in Delayed Language... 230

References ...241
